

Auto-Import Station for DM Dokumenten Management GmbH

DM Document Management GmbH is a Germany-based provider of end-to-end document management solutions.

wüstenrot One of DM Dokumenten Management's clients is Wüstenrot-Gruppe - an Austria-based company providing financial and real-estate services. Its main two subsidiaries are the Wüstenrot construction and the Wüstenrot insurance companies. For this client DM developed and installed a mass document capture system. This system was based on ABBYY FormReader 6.0 Enterprise Edition - a distributed data capture product comprising a number of computer "stations" performing different tasks. Some stations are responsible for scanning, others for OCR, verification, data validation, system administration, and release.

As its input front-end, the system used industrial scanners that weren't directly compatible with ABBYY FormReader 6.0 Enterprise Edition Scanning Station.

Therefore, the images were captured using the software bundled with the scanners, and stored as multi-page TIFF files. After that they needed to be automatically imported.

Although ABBYY FormReader 6.0 Enterprise Edition Scanning Station has the "import-from-folder" feature, its functionality did not satisfy the system's requirements.

In search of a solution, DM contacted ATAPY Software. Thanks to its profound knowledge of ABBYY products, ATAPY was able to write a new component for the system named Auto-Import Station (AIS). AIS replaced the Scanning Station and, as far as the rest of the system is concerned, imitated its behavior.

The solution was successfully installed at Wüstenrot and demonstrated impressive performance.

*DM Dokumenten Management GmbH (www.dokumenten-management.de) develops efficient solutions for document management and revision-safe archiving for over 15 years. DM Dokumenten Management GmbH designed a completely new product generation - **lobo dms** which meets the latest requirements of the Document Management industry. DM customers include Aventis AG, Deutsche Post, BMW AG, Deutsche Borse, Linde AG.*
